SOLUTIONS BOOKS

---

WINTER 2025/26 EN

---

Sidas had been founded in 1975, in the part of the French Alps. **The 3 founders Loic David, Gabriel Pellicot and Jacques Martin,** have the idea of the First custom insoles by walking in the sand of an hawaiian beach.

Since there Sidas never stop innovating and developing its expertise and know how from the ski to the running and from customized insoles to socks, from digital analysing tools to solutions for the shoes.

As a feet expert and sport expert, we are able to provide the best solutions for any kind of consumers and sports activities, from socks to insoles and boot accessories. Our development are based on our 45 years of fitting expertise, digital database of more than 1 600 000 feet scanned and a network of foot and sport experts around the world.

Our mission is to provide solutions for the consumers in order to have them focus on their activity. As a brand, we want to be committed to the consumers, the distribution and the sports. As a brand we want to act responsibly to our ecosystem.

**Focus on your activity, we take care of your foot.**

With a new, ultra-fine pressure platform, the new Feetbox EVO is more reliable in its analysis process. Equipped with a new professional HD camera, taking measurements is more precise, allowing you to view the pressure of the customer's feet directly.

The platform is also able to identify the customer's foot arch type to help the salesperson recommend the best product for their customer. The 24" touchscreen is easy to read and intuitive to use.

Its light, compact structure (less than 40 kg) allows it to be installed in any kind of store. Assembly is quick (15 minutes), and the platform's covering is durable and easy to clean.

**OUR AIM: TO GIVE YOUR CLIENTS  
AN IN-STORE EXPERIENCE, IN  
ORDER TO ENHANCE YOUR  
BUSINESS AND SERVICES.**

The plate is equipped with a 360° camera that scans your feet and legs up to the knees, in order to obtain a 3D model of them. You can see all the measurements of your feet (length, width, thickness), ankles and calves on the screen. The system makes it possible to simulate the fitting of a customised insole and shoe whilst taking into account the thickness of the sock.

After connecting to the database of footwear sold in your shop and a chat with your customer; Feetbox® 3D makes it possible to simulate fitting shoes that are suitable for your customer's feet, in accordance with their constraints, needs and budget by virtually fitting the shoe on the feet, it also makes it possible to see the different areas where the feet are deformed that need to be considered. An unrivalled experience for the client and it saves you time. Using Feetbox® 3D gives the consumer a unique experience.

### FEET REVELATOR IQ

# ABFEETREVEIQ24  
# 128874101

The new Feet Revelator IQ is a mechanical foot-measuring tool that measures the length, width and arch type of the right and left foot separately. It comes with a QR code for easy access to the new Shoo Lite app on the customer's phone. The app provides more detailed information about the measurements.

#### CONNECTED

A QR code on the device can connect the smartphone of the customer to the Shoo IQ lite platform to store the measure of the feet and provide a more accurate information to the customer

#### INDEPENDANT MEASUREMENT RIGHT AND LEFT

The length and the width are measured independantly thanks to the new construction of the Feet revelator for a more precise information and so a better recommendation.

DISCOVER  
IT IN VIDEO!

#### MEASUREMENT

Mechanical structure that can easily measures the length and the width of the feet of the consumer. A dedicated film construction can provide the footprint of the arches to determine its type.

# OUR INSOLES SOLUTIONS: TO MEET EVERYONE'S NEEDS

## INSOLES READY TO FIT

### 3D

Pre-moulded, 3D insoles provide comfort and support thanks to their 3D construction.

- ▶ Anyone seeking foot support together with optimal stability and comfort.

### **3Feet®**

The biomechanical construction of the 3Feet® range is therefore adapted to three different types of arches high, medium and low.

- ▶ Anyone looking for a solution adapted to their own arch for the best support.

### 3D+

Pre-shaped insoles that can also be customized to the feet on request to meet specific individual needs.

- ▶ Anyone seeking greater comfort and control for better support in their movements.

## INSOLES PERSONALIZED

### **C Custom**

Custom technology personalises your insoles 100% to fit the unique shape of your feet.

- ▶ Anyone wanting a solution that perfectly matches the shape of the foot, for ultimate comfort.

## 3D

## WINTER 3D MERINO

# CSE3DWINMERI20  
# 319652000

The Winter 3D Merino insole was designed to provide maximum comfort and warmth during winter activities. The insole's anatomical design helps distribute the load underfoot, limiting pressure points. The EVA foam heel absorbs any shocks related to your chosen activity. The merino covering and insulating foil provide warmth and insulation, even during low intensity activities.

## SIZES

XS-S-M-L-XL-XXL

## DIMENSIONS

## FEATURES

1. EVA foam: Instant comfort for the entire foot
2. Merino covering: Warmth and odour absorption
3. Aluminum foil: Insulation
4. EVA shell: Foot support and stability
5. EVA heel pad: Cushioning

## WINTER 3D PERFORMANCE

# CSE3DWINPERF20  
# 319651000

Inspired by our developments for world cup skiers, the Winter 3D Performance insole has been designed to improve pressure transmission for the skier and heel stability within the boot. These factors allow the skier to be more precise when carving while also providing improved comfort. The insulating aluminium film and EVA foam provide comfort and warmth for the feet, which is an additional bonus for day-long skiing sessions.

## SIZES

XS-S-M-L-XL-XXL

## DIMENSIONS

## FEATURES

1. TPU shell: Foot support and pressure distribution
2. EVA foam: Comfort
3. Microfibre covering: Comfort and anti-slip
4. Aluminum foil: Insulation
5. Heel reinforcements: Forefoot stability
6. EVA heel pad: Shock absorption

## INSOLES READY-TO-FIT

## 3D

## SANISOLE 3D

# (box of 10) CSESISAN3D13  
# (box of 10) 360042

An insole designed to provide good foot support when practicing winter sports. It has an antibacterial top layer.

## SIZES

18-19-20-21-22-23-24-25  
26-27-28-29-30-31-32

## DIMENSIONS

## FEATURES

1. Antibacterial MerryMesh top layer
2. EVA shore A 40: Comfort & lightness

## NORDIC 3D

# CSE3DXCNORD17  
# 311900000

Preformed insoles specially designed for Nordic skiing (classic and skating). Get the most out of your sport during the different phases: propulsion, gliding and manoeuvring. These light and comfortable insoles provide you with precision and momentum. The 3D shell gives stability to the foot, and maximises stability while gliding and manoeuvring. The kick pad optimises and boosts the propulsion phase.

## SIZES

XS-S-M-L-XL-XXL

## DIMENSIONS

## FEATURES

1. Top cover: Anti friction's resistance
2. Comfort layer
3. 3D shell: Stability & movement control
4. Kick pad: Power transfert & sensation

## WINTER 3D RENTAL

# CSESIREN16  
# 309501000

A 3D insole that provides enhanced comfort and hygiene (sanitized treatment). This insole is available in 15 sizes and can be integrated into all the rental boots, or bought by the customer in the shop.

## SIZES

18, 19, 20, 21, 22, 23, 24, 25,  
26, 27, 28, 29, 30, 31, 32

## DIMENSIONS

## FEATURES

1. Highly resistant merry mesh with an antibacterial coating for enhanced hygiene
2. 3mm EVA foam: Comfort
3. 3D EVA shell: Optimum protection and support on the slopes for enhanced comfort, enjoyment and reduced fatigue

## CONSCIENTIOUSLY

We conscientiously develop products around our customers' feet so that they can focus on their activities, whatever they may be - from supporting their little one's first day of skiing to the World Cup race.

We consciously try to limit our impact on the planet by carefully choosing the materials we use for our products; favouring low impact materials such as plant-based or recycled materials.

We provide the following information to support you in making your choices conscientiously:

- Our Ecotech label displays the percentage of recycled materials used in our products
- We measure the carbon weight of our products
- We have conscientiously reduced the carbon weight of our products. It is better but there still remains some amount of CO<sup>2</sup>. To counteract this we contribute to the regeneration of ecosystems, particularly forests, by donating one euro per pair of insoles sold to the Sidas World Foundation.

## SKI TOURING

### CUSTOM TOURING

# CSECUSKITOUG22  
# 324504

This touring insoles is built for the comfort of the tourer all day long, thanks to the top cover AMF. Specifically designed to improve stability and precision with midfoot and heel reinforcement.

SIZES  
XS-S-M-L-XL-XXL

DIMENSIONS

#### FEATURES

1. Midfoot reinforcement Podiafix 1,6 mm: Control and mid-foot support
2. Heel reinforcement Transflux 1,1 mm: Heel stability
3. Full lengthbase PE Shore70 1mm: Resistance and front foot comfort
4. Top Cover AMF 0.8mm: Easy step in and comfort during activity
5. Narrow shape

### CUSTOM RACE TOURING

# CSECURACBTR22  
# 324551

This insoles is an high performance ski Touring insoles designed for a high precision and manage the moisture. A full length base Podiaflex will improve kick for better sensation while climbing.

SIZES  
XS-S-M-L-XL-XXL

DIMENSIONS

#### FEATURES

1. Midfoot Podiafiber reinforcement 1mm: High level of control and mid-foot support with low volume
2. Full lengthbase Podiaflex 1mm: Improvement and durability
3. Top cover AMF 0.8mm: Easy step in and comfort during activity
4. Heel cushioning Podiatech 3mm: Durable comfort

## NORDIC

### CUSTOM XC CLASSIC

# CSECUXCCLAS17  
# 311932000

The Custom XC Classic insole is designed to provide classic Nordic skiers an unparalleled experience in terms of comfort, control and power transfer. The AMF top layer makes it easy to put on; the new Jogtene®Light foam provides boost during all phases of movement and the EVA base can withstand all bending stresses generated when skiing.

SIZES  
XS-S-M-L-XL-XXL

DIMENSIONS

#### FEATURES

1. AMF Top cover: Easy step in & Moisture management
2. Jogtene® Light foam: Propulsion & dynamism
3. PE high density base: Maximal resistance to bending
4. Transflux® carbon & Transflux®: Support, stability and support transfer

### CUSTOM XC SKATING

# CSECUXCSKAT17  
# 311933000

The Custom XC Skating insole is designed to provide skating Nordic skiers an unparalleled experience in terms of comfort, control and power transfer. The AMF top layer makes it easy to put on; the new Jogtene®Light foam provides a boost during all phases of movement and the Podiaflex® base controls twisting, providing an optimal power transfer.

SIZES  
XS-S-M-L-XL-XXL

DIMENSIONS

#### FEATURES

1. AMF Top cover: Easy step in & Moisture management
2. Jogtene® Light foam: dynamic rebound
3. Podiaflex®: Twisting control & optimal power transfer
4. Transflux® carbon & Transflux®: Support, stability and support transfer

RACE

## CUSTOM RACE 1

# CSECURACE22\_1

The Custom Race R1 is a 100% customisable alpine ski insole, recommended for speed disciplines. The podiafiber midfoot reinforcement provides stability and support, whilst the podiaflex base provides the flexibility needed to keep the ski flat.

## SIZES

XS-S-M-L-XL-XXL

## DIMENSIONS

## FEATURES

1. AMF top cover 0,8 mm : Soft and easy step in
2. Podiamic Foam 1mm : Comfort across the entire insole
3. Podiaflex\*: Twisting control & optimal power transfer
4. Reinforcement Podiafiber : Maximum stability and and foot control

## CUSTOM RACE 2

# CSECURACE22\_2

The Custom Race R2 is a 100% customisable alpine ski insole, recommended for technical disciplines. The podiafiber midfoot reinforcement provides stability and support, whilst the podiaflex base provides the flexibility for fast energy transfer.

## SIZES

XS-S-M-L-XL-XXL

## DIMENSIONS

## FEATURES

1. AMF top cover : Soft and easy step in
2. Podiafix: Precision
3. Podiafix: Maximum stability and heel support
4. Reinforcement Podiafiber: Maximum stability and foot control

## CUSTOM RACE 3

# CSECURACE22\_3

The Custom Race R3 is a 100% customisable alpine ski insole, recommended for technical disciplines. The podiafiber midfoot reinforcement provides stability and support, and the podiafiber base provides extreme stiffness for ultra-fast energy transfer.

## SIZES

XS-S-M-L-XL-XXL

## DIMENSIONS

## FEATURES

1. AMF top cover : Soft and easy step in
2. Podiamic Foam 1mm: Comfort across the entire insole
3. Podiafiber: Maximum stiffness and reactivity
4. Reinforcement Podiafiber: Maximum stability and foot control
5. Podiafiber over-reinforcement: Maximum stability and arch support

## Custom

THE PREMIUM FIT STATION IS THE MUST-HAVE CUSTOM MOULDING STATION! ITS ERGONOMIC, ELEGANT AND SIMPLE DESIGN LETS YOU PROMOTE YOUR BOOT-FITTING ACTIVITY IN-STORE, PARTICULARLY THE CUSTOM TECHNOLOGY.

The design ensures both comfort for the boot-fitter and simple moulding. The station is easy to access for both the customer and the technician. It consists of a comfortable adjustable seat and support bars to ensure stability for the customer during the moulding process. A luminous band emphasises the outline of the station and promotes your boot-fitting space.

In technical terms, the sophisticated station allows you to analyse feet using the fully-integrated podoscope, to heat using the Moduvac and to make imprints using the directly integrated silicone bags. 5-year guarantee on the equipment. Lifetime guarantee on metal structure.

### HD VAC 2

# 110V CMAVAHDBLK-1  
# 110V 309537101

# 220V CMAVAHDBLK-2  
# 220V 309536101

The best just got better. The HDVAC was already the best Custom system on the market, but the HDVAC2 is the most precise system ever made. The silicon bags can be stretched up to 800% to adapt to any foot shape, the bags are separated for better hip adaptation, and all the controls are on the front making it easier for the boot-fitter to operate. For retailers who want to offer a complete professional service, this tailor-made product will enhance your custom business line. If you want to bring the best service to your customer, the HDVAC2 is for you.

The HDVAC 2 is a system for moulding comfort insoles, but cannot replace plantar orthoses fitted by professional foot specialists.

### MODUVAC

## CUSTOM ACCESSORIES

### HEEL STAB 65

# CSEACSTA65  
# 309535000

The Heel Stab 65 stabilizes the Custom insoles. Thanks to its anatomical design, the Heel Stab 65 is easy to position. The Stab requires less grinding.

SIZES  
XS-S-M-L-XL-XXL

### HEEL STAB

# CSEACSTA  
# KC2010

Pre-glued PE stabilizer. Easy to fit and grind, for light reinforcement and lateral stability.

SIZES  
1 (XS-S) 2 (M-L) 3 (XL)

### HEEL STAB STIFF

# CSEACSTASTIF  
# 995941

The same concept as the heel stabilizer (Heel stab), but stiffer and available in 4 sizes.

SIZES  
1 (XS) 2 (S-M) 3 (L-XL) 4 (XXL)

## HEEL PROCESS

## CUSTOM ACCESSORIES

### CRIST'AIR STAB

# CSEACSTCRISR  
# 893881

A revolutionary material with unrivalled properties: ultra light (density 100 kg/m<sup>3</sup>); easy to cut and grind. Extra control of both the rear-foot and mid-foot.

#### SIZES

1 (XS-S) 2 (M-L) 3 (XL)

### HEEL STAB COVER

# CSEACSTACOV  
# 353605

EVA coating giving a better finish on the heel stab. Easy to affix to the heel stab thanks to its adhesive.  
Features: EVA shoreA 70, 1mm black. Sold in packs of 5 pairs.

#### SIZES

T1-T2 / T3-T4

### TAPE AMF ROLL 35CM X 6M

# P01XAMFMPL19\_07\_NR  
# 611539102

AMF material 35 cm wide, with double-sided adhesive tape. Ideal for perfectly putting on an insole, managing moisture and optimising comfort.

### TAPE IONMESH ROLL 35CM X 6M

# P01XIONMEL19\_06\_RG  
# 611540104

IONMESH material 35 cm wide, with double-sided adhesive tape. Ideal for wearing of insole optimally, with good abrasion resistance, and optimising comfort.

### TAPE CARBON ROLL 35CM X 6M

# P01XEXTCAL19\_NR  
# 611542101

EXTENSOUPLE CARBONE material 35 cm wide, with double-sided adhesive tape. Ideal for repairing a shoe, covering an insole.

ENHANCE YOUR BOOTWEAR

## INNERBOOTS

# PU INNERBOOTS

## PU CLASSIC COMFORT

# CCHPUCLACOMF  
# 309527000

The PU Classic Comfort boot liner is a premium customization solution for a perfect fit and optimum comfort. The micro fur interior provides softness and warmth and ensures easy foot entry. The new upper cuff structure provides a better torsion-comfort ratio. Skiers will find this boot liner comfortable and attractive, while boot fitters will find it both safe, and easy to inject.

### SIZES

C-L

### FEATURES

1. Pullstraps: Easy foot entry
2. Pu carbon structure: Flexibility & design
3. Micro fur interior: Softness, warmth & easy foot entry
4. Pre-shaped injection pocket: Initial fit & ease of injection
5. Laces: Good foot support

Issued with Ready to Fit Tongue EVO

## PU CLASSIC RACE

# CCHPUCLARACE  
# 311930000

The Classic Race PU innerboot is exclusively designed for narrow ski boots. Uncompromising, it is ideal for skiers looking for ultimate precision. With its fine pocket structure, the innerboot perfectly fits the foot and the shell after injection. Every detail is meticulously thought out to avoid hard spots. Fitted with an injectable tongue (by PU gun), the innerboot guarantees optimal and personalised shin comfort.

### SIZES

C-L

### FEATURES

1. Pullstraps: Easy foot entry
2. Pu carbon structure: Flexibility & design
3. Textile interior: Precision & easy foot entry
4. Thin injection pocket: Precise injection
5. Strap holding
6. Injected tongue

Issued with PU Foam Tongue EVO

## INNERBOOTS

## THERMOFORMABLE INNERBOOTS

## CENTRAL REMOVABLE TONGUE SLIM (CRT SLIM)

# CCHCFTHERCRTSL19  
# 31643100

The finest thermoformable liner.

100% thermoformable, this liner is designed for alpine or touring ski boots with a low fitting volume. Designed with the same technology as the CRT, it is distinguished by its finesse and lightness.

The removable flap is thermoformable and can also be replaced by an injectable Sidas flap or a Heat Ready heated flap.

## SIZES

D-K

## FEATURES

1. Merry mesh lining: Comfort, lightness, low thickness
2. Collar joint: High flexibility, follows the rolling out of the foot as you walk
3. 3 lateral EVA thicknesses: Precision and comfort + heel support
4. Thin removable flap: For maximum precision

Issued with Ready to Fit Tongue EVO

## CENTRAL REMOVABLE TONGUE (CRT)

# CCHCFTHERCRT18  
# 314194000

100% thermoformable, this liner is designed for alpine skiing and cross-country skiing. The result of 2 years of development with the best bootfitters, its internal structure, with variable thicknesses, guarantees comfort and precision after moulding.

The removable flap is thermoformable and can also be replaced by an injectable Sidas flap or a Heat ready heated flap

## SIZES

D-K

## FEATURES

1. Micro-fur upper lining: Maximum comfort
2. Merrymesh lower lining: For greater precision
3. Upper cuff opening: Flexibility
4. 3 EVA side width: Precision and comfort & heel support
5. Removable tongue: For optimal precision

Issued with Ready to Fit Tongue EVO

# TONGUES

## COMFORT FIT TONGUE EVO

# CCHDCLARTFSF23  
# 327148000

100% thermoformable tongue that can be adjusted as close as possible to the shin. This tongue is designed for ski touring as well as traditional alpine ski boots. This tongue is precise, compact and help with the fit of the ski touring boot.

## READY TO FIT TONGUE EVO

# CCHDCLARTFRF25  
# 332463000

100% thermoformable tongue with asymmetric and anatomic construction (right and left foot) and tibial reinforcement for a greater comfort and best fitting. Natural foot flexion by adding slots in the middle section, and providing better support transfer. Made from a new thermoplastic that keep its dynamic properties when cold and is 100% recyclable.

## PU FOAM TONGUE EVO

# CCHDCLARTFPU25  
# 332464000

100% customized thanks to PU injection, the tongue is very curved to fit perfectly to the foot and allow maximum power of transmission. Its unique design provides flexion perfect progressive. Update: new thermoplastic construction.

# 319792101

Experience shows that more than 75% of the reshaping done by bootfitters are due to localised foot pain.

This Kit Deform Twin is the basic kit for stores wishing to start a bootfitting operation and to offer a quick and efficient service to their customers.

TOOLS		CHARACTERISTICS	ADVANTAGES	BENEFITS
<b>CROCO TWIN</b>	<b>1</b>	<ul style="list-style-type: none"> <li>▶ 10mm steel structure</li> <li>▶ 45° curvature</li> <li>▶ Deformation measuring system</li> <li>▶ Removable tool support heads</li> </ul>	<p>Shell reshaping tool that allows the bootfitter to access all parts of the shoes and also to measure the size of the reshaping carried out.</p> <p>Its symmetrical construction allows a single tool to be used for the best results for both right and left shoes.</p>	<ul style="list-style-type: none"> <li>▶ The precision of the alignment of the tool under Stress is guaranteed</li> <li>▶ Allows for precise reshaping of the forward parts of the foot (M1 and M5)</li> <li>▶ The reshaping work is carried out with precision</li> <li>▶ Makes it possible to work on the right and left areas with a single tool</li> <li>▶ Easy and effortless reshaping</li> </ul>

# STRETCHING

## KIT DEFORM YETI EVO

# COUCHKITYETI24

### THE MOST COMPLETE DEFORMATION KIT

It is suitable for all generalised boot shaping requirements.  
Designed to easily deform every parts of the boot.

#### CONTENTS

- ▶ Yeti Evo
- ▶ Jumbo Evo
- ▶ Met 1 Yeti
- ▶ Met 2 Yeti
- ▶ Counter Oval Yeti
- ▶ Counter Dome 50 Yeti
- ▶ Dome 40,50,60 Yeti
- ▶ Toe box pair with connector
- ▶ Heel Yeti
- ▶ Extension 28,40,75 mm
- ▶ Symetric connector x4
- ▶ Washer 3mm x 2

## YETI EVO

# COUCHYETI24  
# 33181101

Reliable, versatile and easy-to-use tool that allows a wide range of deformations (metatarsal and malleolus).

Compatible with all wood and metal spare parts with the Symetric Connector and Sheeva2sidas Adaptator.

## JUMBO EVO

# COUCHJUMBO24  
# 33183101

- ▶ New shape to prevent hull collapse
- ▶ Adjustable width
- ▶ Front and rear deformation
- ▶ Better grip in the hull

Compatible with the former Yeti with the Symetric Connector.

# STRETCHING

## SHEEVA FULL EQUIPPED

# 110V COUCHSHEEVAKIT1-L  
# 110V 321479101

# 220V COUCHSHEEVAKIT2-L  
# 220V 321478101

## AN INNOVATIVE TOOL FOR BOTH BEGINNER AND EXPERIENCED BOOTFITTERS.

Sheeva is complete and easy to use, helping you save time and simplifying all shell molding operations, even the most complex.

The main axis can take several types of molding such as instep, toes, right boot and left boot, and it can rotate to make it easier to access all the tools.

Equipped with a central electronic control panel, the bootfitter can heat or cool the boot with a variety of cycles to control the time and the temperature for each system (up to four).

► Included the 4 types of déformations, and 4 cooling systems.

## VOLUME REDUCER

#3MM CSEDSRV3  
#3MM 995942

#5MM CSEDSRV5  
#5MM 866007

This volume-reducer can be placed under a Sidas insole to reduce the fitting room and provide better foot support inside the boot, for superior precision and comfort.

Available in 3mm thickness (high-density) and 5mm thickness (medium-density). Can be trimmed to ensure a better fit inside the boot.

▶ Sold in boxes of 20 pairs.

## HEEL LIFT HARD

#4MM CSEACHEELLFT16\_HD\_04  
#4MM 309545201

#5MM CSEACHEELLFT16\_HD\_06  
#5MM 309545202

Heel insert that goes inside the boot to reduce the volume. Sold in packs of 20 pairs.

▶ Heel lift hard 4mm  
▶ Heel lift hard 6mm

## HEEL LIFT SOFT

#6MM CSEACHEELLFT16\_SF\_06  
#6MM 309545102

Heel insert that goes inside the boot to reduce the volume. Sold in packs of 20 pairs.

▶ Heel lift SOFT 6mm

## TONGUE SPOILER

# CCHACTONGSPO16  
# 309567101

The tongue spoiler is used to regulate the volume between the shell interior and tongue.

The spoiler is

- ▶ Pre-shaped
- ▶ Adhesive-coated
- ▶ grindable
- ▶ Thermoformable
- ▶ Thickness 5 to 10 mm
- ▶ Pack of 1 pair
- ▶ Available in 1 size

## TONGUE SPOILER COVER

5 BLADES FOR SCALPEL # 32834101

## A WAY OF MODIFYING BOOT LINERS TO SOLVE SKIERS' FOOT PROBLEMS!

This system involves cutting sections out of the boot liner in the places that are causing the skier pain and replacing these sections with Innerboot Comfort Padding, making the liner more comfortable and quickly relieving pain.

Pre-cut elements in several shapes with a protective top layer included: a fast solution for the bootfitter.

Materials used: padding made from Expertène 220 (PU foam) and Ionmesh top layer: advanced materials for an effective, professional solution.

Grey top layer with Sidas logos.

## SHIN PROTECTORS

# ASKINSHINPROTXL16  
# 109555101

Larger shin protectors for maximum comfort. The shin protectors are supplied in pairs and are specially shaped to fit the shin. They effectively relieve pain caused by pressure on the shins from ski boots. Placed underneath the sock, these protectors stay firmly in place throughout any sporting activity.

- ▶ Varying-thickness gel: 2 mm at the edges and 4 mm in the middle, for improved protection.
- ▶ Re-usable.
- ▶ Hand-washable with household detergent for a better hold.
- ▶ Supplied in 20s in a paperboard box that also serves as the in-store display unit.

x 2

## ANKLE PROTECTORS

# ASKINANKLEPROT16  
# 109556101

Gel protectors specially designed to fit round the ankle. They effectively relieve pain caused by the boots pressing against and rubbing the inside and outside of the ankle. Placed underneath the sock, these protectors stay firmly in place throughout any sporting activity.

- ▶ Varying-thickness gel: 2 mm at the edges and 4 mm in the middle, for improved protection.
- ▶ Re-usable.
- ▶ Hand-washable with household detergent for a better hold.
- ▶ Supplied in 20s in a paperboard box that also serves as the in-store display unit.

x 4

## GEL TOE CAPS

# ASKINGLTOECA17  
# 111050000

Gel toe caps allow you to enjoy your sport to the full. Used preventively, they avoid nails turning black due to impacts in the shoe. In case of existing pain, they absorb impacts for instant relief. Washable, reusable silicone protectors.

- ▶ SIZES: S/M (36-40) / L/XL (41-47)
- ▶ Pack par per
- ▶ Adjustable length
- ▶ Delivered in box of 20 or per unit

Sizes Tailles	Big Toe Gros orteil	Dedos medianos	Dedo pequeño

# BOOTS ACCESSORIES

# GRIP SNOW AND ICE

**WALK TRACTION**

- ▶ ANATOMICALLY CONSTRUCTED TO FACILITATE THE FORWARD FLEXING MOVEMENT OF EACH FOOT (RIGHT AND LEFT).
- ▶ END STUDS FOR SUPERIOR GRIP.
- ▶ WIDER STUD BASE FOR LONG-LASTING HOLD.
- ▶ THICK, HARD-WEARING RUBBER, AS USED IN THE MOTOR INDUSTRY, FOR A BETTER HOLD ON THE FOOT.
- ▶ SHAPED AT THE HEEL FOR A BETTER FIT.
- ▶ STAINLESS STEEL STUD TIPS.
- ▶ TEXTURED INTERIOR WEBBING FOR IMPROVED GRIP ONTO FOOTWEAR.
- ▶ PPE (PERSONAL PROTECTION EQUIPMENT)-CERTIFIED BY THE CTC.
- ▶ EACH PAIR COMES WITH TWO SPARE STUDS.

## WALK TRACTION

# CTRWALK16  
# 309532000

The Walk Traction system is the best way to stay safe when walking on snow and frozen ground.

- ▶ Anatomically constructed to facilitate the forward flexing movement of each foot
- ▶ Easy to put on
- ▶ 4 sizes for a perfect fit.
- ▶ SIZES: S - M - L - XL

## WALK TRACTION 1/2

# CTRWALK16  
# 309532000

The Walk Traction 1/2 system is the best way to stay safe when walking on snow and frozen ground.

- ▶ Small grip for city shoes.
- ▶ Easy to put on.
- ▶ 1 Size.

# GRIP SNOW AND ICE

## SKI BOOTS TRACTION

SKI BOOT TRACTION DEVICES ALLOW YOU TO WALK CONFIDENTLY AND COMFORTABLY WITH YOUR SKI BOOTS. THEIR TAPERED SHAPE AT THE TIP MAKES THE MOVEMENT OF THE FOOT EASIER AND THEIR ASYMMETRIC CRAMPON DESIGN MAKES WALKING ON SNOW SAFER.

### SKI TRACTION

# CTRSKIBOOT17

SMALL SPIKES FOR MORE GRIP

ONE SIZE ADJUSTABLE LENGTH

INNER FRAME FOR BETTER GRIP ON YOUR SHOES

FLEXIBLE AND RESISTANT RUBBER

## PROCESS

### 01 SIZE ADJUSTMENT

- Check the length of your ski boot in mm.
- Adjust the ski boot traction device to the corresponding size (round down). The tip of the arrow indicates the size selected.
- Screw in with a Phillips screwdriver.

### 02 FITTING THE DEVICE ON THE SHOE

- Strap on the ski boot traction, starting from the front of the boot, then pull back to adjust it on the heel.
- This product should be stored in a dry place, away from heat and UV sources. It is recommended to check the product every year.

- # Race Strap V2 P3 CCHACSIRACSTRV2P3
- # Race Strap V2 P4 CCHACSIRACSTRV2P4

The flex of your ski boots is essential for the control of your skis, and therefore your performance. The use of an elastic strap improves this flexion while improving shin comfort with the tongue. Our power straps are constructed with 4 different elastic levels, from the softest (P1) to the stiffest (P4) to allow you to adjust the control of your skis to your liking. The straps are equipped with a metal buckle for precise and powerful tightening as well as side protection reinforcement to protect the strap against edge hits during use.

► New high-tenacity polyester webbing / new buckle.

### FREERIDE POWER STRAP

- # Freeride Power Strap P2 CCHACSIFREPSTRP3

The flex in your ski boots is essential to controlling your skis and therefore your performance. Using an elastic strap improves the flex while the boot tongue improves shin comfort. Our Freeride Power straps are constructed with 2 elasticity levels: supple (P2) and stiff (P3), enabling you to set the level of ski control you want. These straps feature a metal buckle to fine-tune tightening and for strength, plus reinforcing on the sides to protect the strap from your ski edges when you're out on the mountain.

STIFFNESS LEVEL	
STRONG FORTE	P3

► 4 screws and 4 grip inserts are included with the Power Strap V2 and Freeride Power Strap".

# RACE BAGS

## RACE BOOTS BAG - 90L

**SIDAS**  
RACE

# ASACSKBB9ORACE24  
# 130037101

### A RACE BOOT BAGS DESIGNED TO PACK ALL THE GEAR OF THE SKI RACER WITH AN INTEGRATED FOLDABLE SEAT.

A 90-litre storage bag for skiing accessories (boots, helmet, gloves, goggles), ideal for ski racers and young ski club members. The bag features an integrated folding seat for when you need to sit down or change without getting wet feet. Made of ripstop polyester and 900D polyester, it is extremely tear-resistant and features waterproof panels.

#### COMPOSITION

- ▶ Integrated foldable seat
- ▶ Polyester ripstop
- ▶ Polyester 900D

#### SIZES

40 x 42.5 X 24 cm

## RACE BOOTS BAG - 60 L

# ASACSKBB6ORACE24  
# 130036101

A 60-litre storage bag for skiing accessories (boots, helmet, gloves, goggles) in a very compact volume – ideal for ski racers and young ski club members. Made of ripstop polyester and 900D polyester, it is extremely tear-resistant and features waterproof panels.

#### COMPOSITION

- ▶ Polyester ripstop
- ▶ Polyester 900D

#### SIZES

40 x 42.5 X 24 cm

## BOOTS ACCESSORIES

## BAGS

## BOOT BAG BLACK

# ASACSKIBOOTBK15  
# 38046901

The Boot Bag Black is an ultra-light, water and dirt-resistant boot bag, reinforced to protect the contents. The bag opens at the top to allow easier access to gear. The side pocket offers practical storage. The shoulder strap has been reinforced and can be adjusted for added comfort when carrying.

## SIZES

40 x 42.5 X 24 cm

## COMPOSITION

► Composition: 600 d coated polyester and nylon

► Can be customised with the shop logo

## BOOT BAG MOUNTAIN

# ASACSKIBAGMOUNT17  
# 111899101

The Mountain Boot Bag is a lightweight and sturdy ski boot bag. Its coated fabric is water-resistant and dirt-resistant; its numerous reinforcements protect the contents of the bag and increase its durability. Its central opening allows easier access to the equipment.

## SIZES

40 x 42.5 X 24 cm

## COMPOSITION

► Composition: 600 d coated polyester and nylon  
► Reinforcements: 4 plastic reinforcements on the underside + moisture-wicking

## NYLON SHOE BAG BLACK

# ASACOUTDSHOE17  
# 110900101

The Sidas Nylon Shoe Bag is a small ultra-light bag for one pair of cross-country skiing shoes. It is made of a water-resistant and dirt-resistant fabric to protect the bag's contents perfectly.

## SIZES

33 x 25 x 22 cm

## COMPOSITION

► Nylon

# MEASURING THE FOOT

## SIZES

A size is a series of measurements, expressed in points, that characterise a foot, last or shoe.

There are different size systems, each with its own history and logic: The Paris Point (EUR), the American Point (US) and the English Point (UK).

The Mondopoint (MP) system, resulting from work carried out by more than 18 countries and governed by international standard ISO 9407, has been created to harmonise the scales.

### OPTION 1: FOOT SIZER

Measurement of the length and width of the foot

01  
Analysis of the foot length

02  
Analysis of the foot width

FOOT SIZER

### OPTION 2: FEET REVELATOR IQ

Determine foot type

Measures the length and width, and reveals footprints

FEET REVELATOR IQ

1. Measurement
2. Footprint : discover arch type
3. Length and width of the foot

### OPTION 3: FEETBOX EVO

Analysis of volume, shape and pressure

- Measurements of the length and width of each foot.
- Pressure and foot arch.

FEETBOX EVO

# SIDAS ACADEMY

THE SIDAS ACADEMY IS A TRAINING ORGANISATION BORN FROM 50 YEARS OF EXPERIENCE WITHIN THE SIDAS WORLD. WHETHER YOU ARE A SALESPERSON, BOOTFITER, BUYER, OWNER OR EVEN BRAND REPRESENTATIVE, THE ACADEMY HAS SOMETHING TO OFFER YOU! SIDAS ACADEMY TRAINING COURSES ARE NOT ONLY ABOUT THE FOOT, WE ARE A REAL STRATEGIC COMPANION FOR YOUR BUSINESS.

## OUR EXPERTISE

- 01** Creation of the brand by a Board of experts
- 02** Professional training and consulting organization
- 03** Team of trainers specializing in Bootfitting and Shoefitting
- 04** Foot and Fit Protocol expertise for the sale of sports shoes

YOUR SIDAS SPECIALIST CAN OFFER YOU A PERSONALIZED AUDIT OF YOUR SALES AREA. DO NOT HESITATE TO CONTACT US.

## OUR MISSIONS

### INFORM & RECOMMEND

All stakeholders in the world of foot, sports and sales.

### TRAIN & CERTIFY

In addition to being real strategic levers, our training and follow-ups are proving to be real skills values.

### ANIMATE & CONNECT

Our summits and Academy events create real links between the players in the world of foot and sport.

FIND OUT MORE  
ABOUT THE  
SIDAS WORLD

---

# A PARTNER FOR EVERYONE WHO WANTS TO GIVE THEIR FEET THE COMFORT AND PROTECTION THEY NEED FOR EACH NEW SPORT AND EACH NEW DAY.

---

The success of Sidas' various projects is achieved by combining our passion for sport with the expertise of athletes, orthopaedic centres and sports experts.

Sidas offers a wide range of products: insoles, foot protections, shoes, skiliners, socks, thermal socks and accessories.

**SIDAS** designs 360° foot care products, including comfort solutions adapted for all types of sport and all types of wear.

**Podiatech** offers a full range of equipment and consumables for podiatry and foot care, in order to meet the needs of foot care professionals and their patients.

**Therm-ic** develops thermal products to help users stay warm when participating in winter sports and activities, allowing them to get the most out of their pursuits.

**Corpus.e** is one of the most innovative suppliers of technologies in the field of digital sales. Its objective is to connect feet with shoes, based on their volumetric data. Its Shoo IQ platform is unique in that it enables the matching of feet with shoes, regardless of which measuring tool is used.

**The Academy** is born from the last 40 years of experience of Sidas world. Sidas and Podiatech have always trained their clients to be able to deliver the best custom products. The Academy wants to go further and share with you all our experience. Today the academy wants to be more... and share its experience, thanks to its network gathering the best world experts in their fields.

Serving wellness and natural health since 1977. We develop high-performance natural care products in France, respecting balance and nature. With **Qenoa** find comfort and vitality. Optimise and preserve your health in a harmonious way.

# FONDATION **SIDAS** **WORLD**

*Abritée par la Fondation de France*

“Beyond the performance and satisfaction of all, a company must undertake all its responsibilities on an environmental and human level.

The SidasWorld Foundation will take action on the environment, by supporting concrete projects on climate and biodiversity.”

Let's take action together !

The word of our directors Jean-Pierre Delangle  
and François Duvillard.

FONDATION  
**SIDAS**  
**WORLD**  
Abritée par la Fondation de France

Find out more about the Sidas World Foundation, which aims to support sustainable development projects that contribute to the reduction of carbon emissions and support the preservation of ecosystems around the world.

---

# THE FOUNDATION IS PART OF SIDAS WORLD'S RAISON D'ÊTRE

---

Born from the Sidas company desire to take action for the planet through concrete climate and sustainable development projects, the Foundation mission is to make a sustainable contribution towards the preservation and rehabilitation of natural ecosystems.

---

## OUR MISSION

---

The purpose of the fund is to support sustainable development projects that help reduce carbon emissions and preserve ecosystems. It can also support initiatives to raise awareness and inform the public about sustainable development.

---

## WHY DID WE SET UP A FOUNDATION ?

---

- ▶ To give to committed partners who are carrying concrete projects in our territories.
- ▶ To raise funds.
- ▶ To raise employees awareness on sustainable development issues.
- ▶ To act together, involving our entire ecosystem from supplier to end-consumer.

---

## OUR FIELDS OF ACTION

---

The primary focus of the Fondation Sidas World is to support projects aimed at improving natural carbon capture:

- ▶ Planting.
- ▶ Forests adaptation, peatlands, mangroves, etc.
- ▶ Restoration of natural areas.
- ▶ Protection of biodiversity.
- ▶ Awareness-raising and training on these themes.
