SOLUTIONS BOOKS  
ALL YEAR 2026 EN

Sidas had been founded in 1975, in the part of the French Alps. The 3 founders Loic David, Gabriel Pellicot and Jacques Martin, have the idea of the First custom insoles by walking in the sand of an hawaiian beach.

Since there Sidas never stop innovating and developing its expertise and know how from the ski to the running and from customized insoles to socks, from digital analysing tools to solutions for the shoes.

As a feet expert and sport expert, we are able to provide the best solutions for any kind of consumers and sports activities, from socks to insoles and boot accessories. Our development are based on our 45 years of fitting expertise, digital database of more than 1 600 000 feet scanned and a network of foot and sport experts around the world.

Our mission is to provide solutions for the consumers in order to have them focus on their activity. As a brand, we want to be committed to the consumers, the distribution and the sports. As a brand we want to act responsibly to our ecosystem.

Focus on your activity, we take care of your foot.

Selected for its excellence in bootfitting, the Sidas Fitting Lab is a place open to all with the aim of offering the best to the feet. Thanks to Sidas Expertise, it offers the best customer experience with the best services, machines and products.

Developing high performance products for high level athletes and sports brands by connecting our resources, ideas and know how for long term partnerships.

# ANALYSE

THE FOUNDATION OF A PROPER FIT

SINCE 1975 SIDAS HAS NEVER  
CESSED INNOVATING AND  
SEARCHING THE BEST  
SOLUTIONS TO FULLY ENJOY.

NO TWO FEET ARE THE SAME, A DETAILED ANALYSIS OF THE SHAPE AND TYPE OF EACH FOOT IS THEREFORE ESSENTIAL IN ENSURING AN OPTIMAL SOLUTION.

#110V CMAFEETBOXEVO-110 #220V CMAFEETBOXEVO  
 #110V 322152101 #220V 321760101

With a new, ultra-fine pressure platform, the new Feetbox EVO is more reliable in its analysis process. Equipped with a new professional HD camera, taking measurements is more precise, allowing you to view the pressure of the customer's feet directly.

The platform is also able to identify the customer's foot arch type to help the salesperson recommend the best product for their customer. The 24" touchscreen is easy to read and intuitive to use.

Its light, compact structure (less than 40 kg) allows it to be installed in any kind of store. Assembly is quick (15 minutes), and the platform's covering is durable and easy to clean.

## FOR BESTPOKE PROFESSIONAL ADVICE

### PLATEFORME shooIQ PRO 12

With Corpus.e, offer your customers a unique digital experience. Thanks to a database created from nearly 1,600,000 analyses, the foot measurement process is precise and helps the salesperson to recommend a suitable set of solutions to fit their customers' needs. Product recommendations can be configured depending on what you offer in-store so you can offer customers a successful experience. More than a piece of software, ShooIQ7 helps to increase your average order amount.

#### NEW INTERFACE - MY SHOOIQ TAB

- Full sizes tab, gathering all analysis data
- Insoles recommendation by technologies
- Insole simulator
- Live view
- Possibility to print a ticket with customer data
- Multiple scans

## THE FOOT MEASURING TOOL TO THE DIGITAL PLATFORM *shooIQ*

### FEET REVELATOR IQ

# ABFEETREVEIQ24  
# 128874101

The new Feet Revelator IQ is a mechanical foot-measuring tool that measures the length, width and arch type of the right and left foot separately. It comes with a QR code for easy access to the new Shoo Lite app on the customer's phone. The app provides more detailed information about the measurements.

#### CONNECTED

A QR code on the device can connect the smartphone of the customer to the Shoo IQ lite platform to store the measure of the feet and provide a more accurate information to the customer

#### INDEPENDANT MEASUREMENT RIGHT AND LEFT

The length and the width are measured independantly thanks to the new construction of the Feet revelator for a more precise information and so a better recommendation.

#### MEASUREMENT

Mechanical structure that can easily measures the length and the width of the feet of the consumer. A dedicated film construction can provide the footprint of the arches to determine its type.

# INSOLES

SUPPORTING THE PERFECT FIT

## OUR INSOLES SOLUTIONS: TO MEET EVERYONE'S NEEDS

### INSOLES READY TO FIT

#### F-ESSENTIALS™

F-essentials technology meets the simple and basic needs of everyday life.

► Anyone looking for a solution to enhance their daily comfort.

#### 3D

Pre-moulded, 3D insoles provide comfort and support thanks to their 3D construction.

► Anyone seeking foot support together with optimal stability and comfort.

#### 3Feet®

The biomechanical construction of the 3Feet® range is therefore adapted to three different types of arches high, medium and low.

► Anyone looking for a solution adapted to their own arch for the best support.

#### 3D+

Pre-shaped insoles that can also be customized to the feet on request to meet specific individual needs.

► Anyone seeking greater comfort and control for better support in their movements.

### INSOLES PERSONALIZED

#### C Custom

Custom technology personalises your insoles 100% to fit the unique shape of your feet.

► Anyone wanting a solution that perfectly matches the shape of the foot, for ultimate comfort.

## IMPACT REDUCER DUAL FOAM

# CSEESIMREDDF19  
# 315500000

These insoles provide high levels of impact dissipation and foot propulsion. The Dual-Material construction provides cushioning at the heel and propulsion at the forefoot. The slim design (3mm) allows them to be used both underneath existing insoles, or in direct contact with the foot. They are also effective in preventing joint pain.

### CONSCIENTIOUSLY

We conscientiously develop products around our customers' feet so that they can focus on their activities, whatever they may be. We consciously try to limit our impact on the planet by carefully choosing the materials we use for our products; favouring low impact materials such as plant-based or recycled materials. We provide the following information to support you in making your choices conscientiously:

- We measure the carbon weight of our products
- We have conscientiously reduced the carbon weight of our products. It is better but there still remains some amount of CO<sup>2</sup>.

CUSTOM PROCESS

## A SIDAS X SALOMON TRAIL RUNNING TEAM COLLABORATION

### 1/ SIDAS GRIP TECHNOLOGY

A game changing feature that holds your feet in place for precision, stability and support you can feel. Achieved through a combination of high-quality foams, an ultra thin sandwich construction, and slightly grippy material on the underside of the insole to stabilize you in for the ups as well as the downs.

### 2/ UNDERFOOT COMFORT

A flexible pre-shaped sandwich construction with friction reducing materials used on the outer surface ensure a chafe-free and comfortable run.

### 3/LIGHTWEIGHT DURABILTY

Conceived using an ambitious and well-balanced combination of high-quality foams that are both ultra thin and lightweight as well as extremely durable.

## F-ESSENTIALS™

### MAX PROTECT MOVE SUPPORT

# CSEESMPRMOSP20  
# 321218000

Improve comfort and stability during your physical activities with MAX PROTECT MOVE SUPPORT multi-sport insoles. Designed to absorb 90% of the energy from an impact thanks to Podiane I+ technology, they protect your joints from repeated shocks and give you dynamic support thanks to their TPU FLEX arch supports.

SIZES  
XS-S-M-L-XL-XXL

DIMENSIONS

FEATURES

- 1. Podiane I+: High shock absorption
- 2. TPU FLEX shell: Supports and stabilises the foot
- 3. Mesh covering: Breathability and comfort
- 4. Gel pad: Cushioning and heel comfort

### MAX PROTECT ACTIV' SLIM

# CSEESMPRACSL20  
# 321221000

Increased comfort and performance for high-intensity sports thanks to MAX PROTECT ACTIV' SLIM insoles. Designed to cushion shocks, these insoles use Podiane I+ technology which absorbs 90% of the energy from an impact and protects your joints. Their propulsive insert at the front ensures energetic launching whilst their TPU Flex arch support improves your stability and reduces the risk of twisting. The mesh covering and the gel insert at the heel ensure perfect moisture management and immediate comfort. In the slim version, these MAX PROTECT insoles are ideal for low-volume footwear.

SIZES  
XS-S-M-L-XL-XXL

DIMENSIONS

FEATURES

- 1. Podiane I+: High shock absorption
- 2. Dynamic insert: Improves propulsion
- 3. TPU FLEX shell: Supports and stabilises the foot
- 4. Mesh covering: Breathability and comfort
- 5. Gel pad: Cushioning and heel comfort

### MAX PROTECT ACTIV'

# CSEESMPRACTI20  
# 321220000

Comfort and maximum cushioning for high-intensity sports thanks to MAX PROTECT ACTIV' insoles. Designed to offer cushioning from the most extreme shocks, these insoles use Podiane I+ technology which absorbs 90% of an impact's energy and actively protects your joints. Their propulsive insert at the front ensures energetic launching while their TPU Flex arch support holds the foot and reduces the risk of twisting. The mesh covering and the gel insert at the heel ensure perfect moisture management and immediate comfort.

SIZES  
XS-S-M-L-XL-XXL

DIMENSIONS

FEATURES

- 1. Podiane I+: High shock absorption
- 2. Dynamic insert: Improves propulsion
- 3. TPU FLEX shell: Supports and stabilises the foot
- 4. Mesh covering: Breathability and comfort

## Custom

### CUSTOM BIKE PRO

# CSECUBIKEPRO19  
# 317793000

Fully customisable insoles developed in partnership with the ASTANA cycling team. These insoles have been designed to offer cyclists a unique experience by improving performance through reduced susceptibility to fatigue, and increased comfort and precision. Their construction helps to stabilise the heel, keep the midfoot in place and distribute load, optimising the power transfer from foot to pedal. The forefoot technology significantly reduces vibration and protects joints from microtrauma. Antibacterial, resistant insoles suitable for narrow shoes.

SIZES  
XS-S-M-L-XL-XXL

#### DIMENSIONS

#### FEATURES

1. AMF topcover: Good moisture management, antibacterial & durable
2. Expertene foam: Optimum comfort, reduced vibration & extremely resistant
3. Podiaflex: Foot support & control
4. Transflux reinforcements: Support & stability for the rearfoot, encouraging correct body alignment

### CUSTOM BIKE PRO ULTRA

# CSECUBKPRULT20  
# 321354000

Inspired by our collaboration with the Astana Pro team, the new Custom Bike Pro Ultra insole improves the energy transfer of your shoes, for more efficient and fluid pedalling. Its PODIA-FIBER structure, exclusively developed by SIDAS, offers 6 to 7 times more rigidity under the foot while maintaining minimum thickness and weight. With each rotation, the transfer of forces from the foot to the pedal is optimised, without compromising the comfort and precision of your shoe.

100% customisable, this very easily mouldable insole will perfectly adapt to the anatomy of every foot for optimal alignment of the lower limbs, reducing pain and the risk of muscle and joint injuries.

SIZES  
XS-S-M-L-XL-XXL

#### DIMENSIONS

#### FEATURES

1. Lighten dynamic foam + AMF: Comfort and dynamism
2. PODIAFLEX Base: Rigidity, robustness and flexibility
- 3-4. 1 mm PODIAFIBER® reinforcement: Optimal rigidity

# F-ESSENTIALS™

## CUSHIONING GEL SLIM

# CSEESCUSHSLI5  
# 378626

Dynamic gel construction for maximum cushioning of the heel. Cushioning Gel Slim insoles absorb shocks thanks to the dynamic cushioning gel concept developed by Sidas: a network of gel microbubbles placed in the impact zone is gradually deformed upon impact, thus providing an exceptional dynamic cushion. Anti-bacterial and washable insoles. Insoles designed for slim-fitting footwear (thickness 2 mm).

SIZES  
XS-S-M-L-XL-XXL

DIMENSIONS

FEATURES

1. Toplayer: Cushioning & antibacterial
2. Micro-perforations: Breathable
3. Gel: Cushioning & comfort
4. Dynamic Gel: Active cushioning

## CUSHIONING GEL

# CSEESCUSHION  
# 368302

Dynamic gel cushioning for maximum cushioning of the heel. Cushioning Gel insoles absorb shocks thanks to the dynamic cushioning gel concept developed by Sidas: a network of gel microbubbles placed in the impact zone is gradually deformed upon impact, thus providing an exceptional dynamic cushion. Anti-bacterial and washable insoles.

SIZES  
XS-S-M-L-XL-XXL

DIMENSIONS

FEATURES

1. Toplayer: Cushioning & antibacterial
2. Micro-perforations: Breathable
3. Gel: Cushioning & comfort
4. Dynamic Gel: Active cushioning

## CUSHIONING GEL MEMORY

# CSEESCUSHMEMO  
# 301525000

Cushioning Gel Memory insoles absorb shocks effectively because they feature the dynamic cushioning gel concept developed by Sidas. A network of gel microbubbles situated in the shock zone progressively deforms upon impact to create an unrivalled dynamic cushioning effect. The memory foam top layer moulds around the foot shape, distributing pressure evenly to ensure maximum comfort throughout the day. Washable antibacterial insoles.

SIZES  
XS-S-M-L-XL-XXL

DIMENSIONS

FEATURES

1. Toplayer: Cushioning & antibacterial
2. Micro-perforations: Breathable
3. Gel: Cushioning
4. Memory foam: Pressure point distribution & long-lasting comfort
5. Dynamic gel: Active cushioning

THE PREMIUM FIT STATION IS THE MUST-HAVE CUSTOM MOULDING STATION! ITS ERGONOMIC, ELEGANT AND SIMPLE DESIGN LETS YOU PROMOTE YOUR BOOT-FITTING ACTIVITY IN-STORE, PARTICULARLY THE CUSTOM TECHNOLOGY.

The design ensures both comfort for the boot-fitter and simple moulding. The station is easy to access for both the customer and the technician. It consists of a comfortable adjustable seat and support bars to ensure stability for the customer during the moulding process. A luminous band emphasises the outline of the station and promotes your boot-fitting space. In technical terms, the sophisticated station allows you to analyse feet using the fully-integrated podoscope, to heat using the Moduvac and to make imprints using the directly integrated silicone bags. 5-year guarantee on the equipment. Lifetime guarantee on metal structure.

The best just got better. The HDVAC was already the best Custom system on the market, but the HDVAC2 is the most precise system ever made. The silicon bags can be stretched up to 800% to adapt to any foot shape, the bags are separated for better hip adaptation, and all the controls are on the front making it easier for the boot-fitter to operate. For retailers who want to offer a complete professional service, this tailor-made product will enhance your custom business line. If you want to bring the best service to your customer, the HDVAC2 is for you.

The HDVAC 2 is a system for moulding comfort insoles, but cannot replace plantar orthoses fitted by professional foot specialists.

## MODUVAC

# 220V CMAMODU09-2  
# 220V 107 57501

The new Sidas system to accompany the HDVAC2 system for moulding Custom footbeds. Compact, fast and simple, the Moduvac heats and presses the footbeds using a vacuum system in order to fuse the materials together, and prepare the insoles for moulding. The Moduvac is compatible with all HDVAC systems.

# CSORURAAKLTU24  
# 328569000

SIZES UNISEX: 35-38 / 39-41 / 42-44 / 45-47    SIZES WOMEN: 35-36 / 37-38 / 39-40 / 41-42

Ultra-lightweight, technical running socks manufactured to improve breathability and comfort while running.

All the expected benefits when running have been incorporated into the design of these socks. Its In & Out (without cut wire) and anatomical construction provides more comfort. An airy mesh has been positioned on the top of the foot to ensure good breathability. The construction of this sock also incorporates a support zone at the ankle to improve stability while running, and a light reinforcement at the toe level for more protection and comfort. Its medium tension will ensure good support from the sock throughout your activity. Finally, with its weight of 30.2g, this sock is the lightest in our range for a second skin effect.

**BREATHABILITY**  
Ventilated mesh in the arch of the foot for moisture wicking and breathability when running.

**IMPROVED GRIP**  
A band of silicon yarn is added to the socks construction in order to improve the grip between the socks and the shoe insoles to enhance the benefits of the insoles for optimal comfort.

**REINFORCED PROTECTION**  
These socks have two protective zones in the heel and toe area to ensure the runner's comfort on all the terrains.

# CSORURANCRWU21  
# 323364000

SIZES UNISEX: 35-38 / 39-41 / 42-44 / 45-47

Ultralight, thin and technical Socks for running. The Run anatomic socks is built for the comfort of your run.

All the essentials benefits expected for running have been integrated at the conception of the socks, breathability under the foot where the warmth is important, support of the ankle to prevent injuries and fatigue while running, "in and out" construction of the socks to avoid extra thickness between foot and insole for better sensation. Our expertise in feet helped us to design the synergy socks running line. Thanks to our feet database of 400 000 feet scanned, we were able to design a very precise and unique socks line to enhance the insoles benefits: stability and sensation.

Rainbow

SIZES UNISEX: 35-38 / 39-41 / 42-44 / 45-47

Technical and colourful (Tie & Dye technology) trail running sock, co-designed with pro runner Caitlin Fielder, winner of the Grand Trail des Templiers 2024 with these socks.

Anatomical, thin and breathable, they guarantee style and comfort whether you're chasing summits or hitting your local trails, they are a reminder to run bold, run free.

The Synergy Fit construction and the addition of a grip strip at the forefoot ensure better contact with the sole for greater stability and comfort.

**Caitlin's words:** "I'm super stoked to announce my collaboration with Sidas to create a vibrant, one-of-a-kind tie-dye trail running sock. As both a professional trail runner and an artist, this project allowed me to merge my two passions — the grit of the trail with the creativity of art. This sock is not just about bold colour; it's about self-expression, energy, and movement — all essential elements of trail running"

SIZES UNISEX: 35-36 / 37-38 / 39-40 / 40-41 / 42-43 / 44-46 / 47-49

High definition running socks, designed to improve the synergy with your insoles.

Thin, light and technical, they will give you a better feeling when running. The Synergy Fit construction and grip strips ensure better contact with the insoles for more stability and comfort.

ULTRA LIGHT & THIN  
The socks have a very thin construction thanks to our Synergy Fit design. They are also very light, weighing only 26.5 grams.

MAXIMUM GRIP  
3 anti-slip grip strips are added to the sock construction to improve sock/insole grip and reduce friction in your shoes by 65.

BREATHABILITY  
Ventilated mesh in the arch of the foot for moisture wicking and breathability when running.

# TRAIL DOUBLE

# CSORUTDBLE24\_BKTU  
# 32824310

SIZES UNISEX: 35-36 / 37-38 / 39-40 / 40-41 / 42-43 / 44-46 / 47-49

Double-sided, technical trail running socks designed to reduce the risk of blisters and improve comfort during your trail run.

Trail runners are particularly prone to blisters due to distance traveled, wet conditions and varied support. To address this Sidas has developed a technical sock, alongside its athletes, with double construction, so that friction takes place between the two socks and not on the foot.

All the essential benefits expected for trail running have been integrated into the design of this double sock. The left foot / right foot anatomical shape, combined with the In & Out construction (without cut threads) offers more comfort and guarantees a perfect fit to your foot. In addition, protection zones positioned at the ankle, heel and toe protect your feet from impacts. Polygiene fibers and air mesh positioned underfoot keep your feet cool and dry while the ankle support zone provides optimal support for a safe and stable run. The socks also have a wide grip tape for improved grip as well as a reflective tape for good visibility, day and night.

BLISTER PROTECTION

The double trail is composed of two socks to limit friction and the risk of blisters. The Friction is confined to the layer between the two socks instead of on the feet the sock and the foot.

MAXIMUM PROTECTION

Protection zones have been added to the ankle, heel, and toe areas for added comfort and a steadier stride.

IMPROVED GRIP

A wide grip band has been positioned on the sock to improve adherence between the insole/sock synergy.

SIZES UNISEX: 35-36 / 37-38 / 39-40 / 40-41 / 42-43 / 44-46 / 47-49

High definition and technical running socks designed to give you a better feeling when running due to their Synergy Fit construction.

They are perfect for use on the road or on the trail, allowing you to enjoy better synergy with your soles. All the essential benefits required for running have been integrated into the design of these socks: aeration zone in the arch for better evacuation of perspiration, support zone in the ankle to improve stability and limit the risk of injury, 3 anti-slip grip strips to reduce instability and friction, reflective strip for greater visibility for your night runs. Designed with merino wool to ensure good warmth and moisture management for running in cold conditions. The socks also offer good odour management thanks to Polygiene technology. This treatment, which uses naturally occurring silver salt microparticles, prevents bacteria from spreading and growing, reducing odours from strenuous activity. The socks stay fresh and last longer (guaranteed to last at least 100 washes). Polygiene fibres have been tested by laboratories and are completely safe for the skin.

SIZES UNISEX: 35-36 / 37-38 / 39-40 / 40-41 / 42-43 / 44-46 / 47-49

High definition Running socks designed for long endurance. This socks is built to improve the sensation and the performance of the runners on long distance; the progressive calf compression will stabilize the muscle and help recovery.

The socks construction around the feet is very thin and strong to maximize the sensation of the foot with the insoles and so, the ground. The 3 gripping bands will ensure a high contact of the socks with the insoles of the shoe. The Synergy Fit construction, based on database of 400 000 feet will enhance the benefits of the insoles, stability and sensation.

ULTRA FIT LINE

# ULTRA FIT CONCEPT

- ① The combination of our foot knowledge and the ultra runners of the athletes lead us to a new socks construction dedicated to foot support on distance above your habit and ability.
- ② On this distance, the muscular fatigue will make the foot collapse, the heel flesh will reduce, the foot will get longer and the metatarsals will get larger.
- ③ Our new Ultra fit Technology is built to compensate and support your foot for these fatigue symptoms, acting like an exo skeleton around your foot.

# CSORURULTR22\_BKYE  
# 32561510

Black / Yellow

SIZES UNISEX: 35-36 / 37-38 / 39-40 / 40-41 / 42-43 / 44-46 / 47-49

The first sock designed to support the evolution of the foot over long distances.

Technical, light and breathable ultra running socks designed to support the evolution of your feet during exercise. Indeed, over long distances, muscular fatigue causes the foot to sag and lengthen, the metas to widen and the heel to become more sensitive. We have therefore developed a new range of socks with the ultra-trailers, which act like an exoskeleton to relieve the effects of muscular fatigue of the foot during long-distance races. All the essential benefits expected for ultra running were then integrated into the design of the socks: strapping at the heel and meta heads to prevent injury and fatigue, breathability of the foot (where heat is important) to avoid the accumulation of perspiration, 2 grip strips to improve the sock/sole synergy, In&Out construction for more precision and better sensations, reflective strip for more visibility during your night runs. The socks also offer good moisture and odour management thanks to Polygiene technology. This treatment, which uses naturally occurring silver salt microparticles, prevents bacteria from spreading and growing, reducing odours from intense activity. The socks stay fresh and last longer (guaranteed to last at least 100 washes). Polygiene fibres have been tested by laboratories and are completely safe for the skin.

# FOOT PRODUCTS

## FOOT CARE SOLUTIONS

### FOOT PRODUCTS

## IN-SHOE PADS

Sidas is launching In-Shoe Pads, a new range of gel products that provide a solution to everyday foot pain. These products can be slipped into your shoe to relieve the most frequent types of pain, such as heel pain, blisters, flat feet, etc.

### GEL HEEL STRIPS

# CFCFPHEELSTR18  
# 313346101

These anti-slip heel strips prevent your feet from moving around inside your footwear. Used preventively, they will stop swelling, chafing and blisters.

- Pack par per / Supplied in box of 10
- One size
- Fitting: Position the gel anti-slip heel strips inside your footwear where the heel is located.

### FOAM MET PADS

# CFCFPMETPAD18  
# 313332000

These foam met pads relieve tension in the forefoot, ensuring optimum comfort.

- Pack par per / Supplied in box of 10
- Sizes: S (36-39) ; M (40-43) ; L (44-47)
- Fitting: Remove the insole from your footwear and place the met pad in the centre of the insole towards the front.

### GEL ARCH SUPPORTS

# CFCFPARCHSUP18  
# 313331000

These close-fitting gel heel cups absorb shocks all day long for optimum comfort. Specially shaped to fit round the heel, they prevent blisters and stabilise your feet, enabling you to enjoy your day or sporting activity to the full.

- Pack par per / Supplied in box of 10
- Sizes: S (36-39) ; M (40-43) ; L (44-47)
- Fitting: Insert the arch supports into your footwear where the arch of your foot is positioned. Clean your arch supports regularly with soap and water to ensure they remain in place.

### GEL HEEL PADS

# CFCFPHEELPAD18  
# 313333000

These anti-slip heel strips prevent your feet from moving around inside your footwear. Used preventively, they will stop swelling, chafing and blisters.

- Pack par per / Supplied in box of 10
- Sizes: S / M (36-43) ; L/XL (44-47)
- Fitting: Insert the heel cups into the back of your footwear. Clean your heel cups regularly with soap and water to ensure they remain in place.

### GEL BONE SPUR PADS

# CFCFPBONESPU18  
# 313334000

These gel bone spur pads relieve heel pain. They also absorb shocks all day long for optimum comfort. They are easy to fit and will quickly become an essential part of your daily life.

- Pack par per / Supplied in box of 10
- Sizes: S / M (36-43) ; L/XL (44-47)
- Fitting: Remove the insole from your footwear and place the met pad in the centre of the insole towards the front.

### GEL HEEL CUPS

# CFCFPHEELCUP18  
# 313335000

These close-fitting gel heel cups absorb shocks all day long for optimum comfort. Specially shaped to fit round the heel, they prevent blisters and stabilise your feet, enabling you to enjoy your day or sporting activity to the full.

- Pack par per / Supplied in box of 10
- Sizes: S / M (36-43) ; L/XL (44-47)
- Fitting: Insert the heel cups into the back of your footwear. Clean your heel cups regularly with soap and water to ensure they remain in place.

## FOOT PROTECTION

Sidas Foot Protection offers targeted pain relief for sports people. These products are applied directly to the skin, preventing blisters, black toenails and overheating.

### GEL TOE CAPS

# ASKINGLTOECA17  
# 111050000

Gel toe caps allow you to enjoy your sport to the full. Used preventively, they avoid nails turning black due to impacts in the shoe. In case of existing pain, they absorb impacts for instant relief. Washable, reusable silicone protectors.

- ▶ SIZES: XS (small toes) / S/M (36-40) / L/XL (41-47)
- ▶ Pack par per
- ▶ Adjustable length
- ▶ Delivered in box of 20 or per unit

### GEL TOE WRAPS

# ASKINGLTOEWR17  
# 111051000

Gel toe sleeves allow you to enjoy your sport to the full. They ease pain caused by friction between toes and prevent corns and calluses.

- ▶ SIZES: S/M (36-40) / L/XL (41-47)
- ▶ Pack par per
- ▶ Adjustable length
- ▶ Delivered in box of 20 or per unit

### GEL PLANTAR PROTECTORS

# ASKINGLPLAPR17  
# 111049000

Gel plantar protectors allow you to enjoy your sport to the full. Used preventively, they avoid inflammation, burns and blisters. In case of existing pain, they absorb impacts for instant relief.

- ▶ SIZES: S/M (36-40) / L/XL (41-47)
- ▶ Pack par per
- ▶ Anatomical Construction (right foot / left foot)
- ▶ Delivered in box of 20 or per unit

#### TOE PROTECTORS V2

# CFCOSTOEPROT20  
# 318292101

Apply the Silite™-T protection for toes as soon as the first signs of friction appear in order to prevent the development of blisters. Thin and imperceptible thanks to their biomechanical construction, the protection is very long lasting so you can fully enjoy your activity.

THICKNESS: 1 mm

#### FOOT PROTECTORS V2

# CFCOSTOEPROT20  
# 318292101

Apply the Silite™-T protection to the friction area as soon as you feel overheating sensations, to prevent the development of blisters. Its biomechanical construction allows for long-lasting wear. Thin and imperceptible, it allows you to fully enjoy your sporting activity.

THICKNESS: 1 mm

#### ESSENTIAL PROTECTOR KIT V2

# CFCOSTOEPROT20  
# 318292101

The Silite™-T protection kit is your best ally when practicing a sporting activity. Apply the protection to the friction areas to ease the pain for instant comfort. Their biomechanical construction allows for long-lasting protection.

THICKNESS: 1 mm

#### FOOT PROTECTOR SHEET 2 MM

# ASKINFOOTPROT14\_02SH  
# 36829701

The Silite™ protection kit is your best ally when practicing a sporting activity. Apply the protection to on the friction areas to ease the pain for instant comfort. Their biomechanical construction allows for long-lasting protection.

Dimensions:  
100x115 mm (2mm)

## CREAM

Sidas is embarking on a new adventure by marketing a range of sports creams. This range is intended for Outdoor sports such as running, hiking or trail running and uses top-of-the-range natural ingredients. It consists of two products, an anti-chafing cream and a recovery gel with a cooling effect.

### ANTI FRICTION CREAM

# 75 ML CFCCREANTIF17\_75ML # 15 ML CFCCREANTIF17\_15ML  
# 75 ML 311063101 # 15 ML 311064101

Anti-friction cream that prevents blisters. Protects, moisturises and revitalises. This cream has a protecting action, forming a film that boosts the skin's elasticity and defensive ability. Apply before sport by rubbing it in at length to areas prone to friction: feet, thighs, arm pits, nipples, etc.

- ▶ Shea butter, marine collagen, vitamin E, witch hazel extracts. Does not contain parabens or PEG. Contains natural preservatives.
- ▶ Not tested on animals / 99% natural ingredients

75 ML PACK OF 15 OR INDIVIDUALLY / 15 ML PACK OF 25

### RECOVERY CRYO GEL

# 75 ML CFCCRECOV17\_75ML # 15 ML CFCCRECOV17\_15ML  
# 75 ML 311066101 # 15 ML 311065101

Provides rapid relief from injury: strained muscles, impact injuries, cramp, dislocations and bruising. The silicon and targeted essential oils act in synergy to produce a three-fold effect: relaxing, stress-relieving and repairing. Apply locally as soon as possible after injury. Repeat application if necessary.

- ▶ Organic silicon and essential oils (mint, peppermint, eucalyptus, rosemary, tea tree)
- ▶ 77% natural ingredients

75 ML PACK OF 15 OR INDIVIDUALLY / 15 ML PACK OF 25

### FOOTCARE KIT V2

# CFCFOCAREKIT20  
# 318293000

This foot-care kit protects and soothes your feet during sport from start to finish. It prevents blisters and friction, soothes impact in your shoes, avoids black nails and friction between the toes.

- ▶ 1 Anti Friction cream 15 ml / 1 Recovery gel 15 ml 2 Gel toe caps / 4 Gel toe wraps / 5 foot protectors v2
- ▶ SIZES: XS (small toes) / S/M (36-40) / L/XL (41-47)

## FOOT ORTHOSES

The Foot Orthoses range is designed to provide comfort and support for your feet, ankles, and joints. These products are great for prevention and recovery, limiting the risk of injury while practising sports.

### HEEL HUG

# CFCFPHEELHUG18  
# 315271101

Offer your heel more cushioning and comfort! The Heel Hug exerts lateral compression on the heel, renewing its natural cushioning properties. Choose your preferred level of compression from the three options. You can use it as you see fit: before, during or after exercise, for a minimum of one hour. This product offers improved comfort; it is not a medical orthosis.

## BAGS

### NYLON SHOE BAG BLACK

# ASACOUTDSHOE17  
# 110900101

The Sidas Nylon Shoe Bag is a small ultra-light bag for one pair of cross-country skiing shoes. It is made of a water-resistant and dirt-resistant fabric to protect the bag's contents perfectly.

- ▶ Soft bag, 1 front pocket with zipper, 4 plastic stays under the bag
- ▶ Dimensions: 33 x 25 x 22 cm
- ▶ Composition: Nylon

### LIGHT SHOE BAG

# Yellow ASACLGTSHOEYE17  
# Yellow 11651101

The Sidas Small Sport Shoe Bag is lightweight, easy to carry and can hold a pair of shoes. This small promotional bag can make a lovely gift for your customers (sold in packs of 10).

- ▶ Dimensions: 40x38cm (blue) / 50x42cm (yellow)
- ▶ Composition: Nylon
- ▶ Pack of 10

### POCKET BAG

# ASACBLKPOCKBAG16  
# 109565101

The Sidas Pocket Bag is a small, ultra lightweight bag. It is made from water- and dirt-resistant fabric.

- ▶ Pack of 10

### DRYER BAG CEDAR WOOD

# CSHACDRYBAWOOD19  
# 315502101

The Dryer Bag Cedar Wood naturally dries all types of damp shoes.

- ▶ Absorbs moisture from your shoes 4 times faster than air-drying
- ▶ Eliminates odours thanks to its anti-fungal process.
- ▶ Made using 100% natural cedar wood and a polyester fabric.
- ▶ Reusable and durable product.

# MEASURING THE FOOT

## SIZES

A size is a series of measurements, expressed in points, that characterise a foot, last or shoe. There are different size systems, each with its own history and logic: The Paris Point (EUR), the American Point (US) and the English Point (UK).

The Mondopoint (MP) system, resulting from work carried out by more than 18 countries and governed by international standard ISO 9407, has been created to harmonise the scales.

### OPTION 1: FOOT SIZER

Measurement of the length and width of the foot

01  
Analysis of the foot length

02  
Analysis of the foot width

FOOT SIZER

### OPTION 2: FEET REVELATOR™

Determine foot type

Measures the length and width, and reveals footprints

FEET REVELATOR™

1. Measurement
2. Footprint : discover arch type
3. Length and width of the foot

### OPTION 3: FEETBOX EVO

Analysis of volume, shape and pressure

- Measurements of the length and width of each foot.
- Pressure and foot arch.

# SIDAS ACADEMY

THE SIDAS ACADEMY IS A TRAINING ORGANISATION BORN FROM 50 YEARS OF EXPERIENCE WITHIN THE SIDAS WORLD. WETHER YOU ARE A SALESPERSON, BOOTFITER, BUYER, OWNER OR EVEN BRAND REPRESENTATIVE, THE ACADEMY HAS SOMETHING TO OFFER YOU! SIDAS ACADEMY TRAINING COURSES ARE NOT ONLY ABOUT THE FOOT, WE ARE A REAL STRATEGIC COMPANION FOR YOUR BUSINESS.

## OUR MISSIONS

### INFORM & RECOMMEND

All stakeholders in the world of foot, sports and sales.

### TRAIN & CERTIFY

In addition to being real strategic levers, our training and follow-ups are proving to be real skills values.

### ANIMATE & CONNECT

Our summits and Academy events create real links between the players in the world of foot and sport.

## OUR EXPERTISE

- 01 Creation of the brand by a Board of experts
- 02 Professional training and consulting organization
- 03 Team of trainers specializing in Bootfitting and Shoefitting
- 04 Foot and Fit Protocol expertise for the sale of sports shoes

YOUR SIDAS SPECIALIST CAN OFFER YOU A PERSONALIZED AUDIT OF YOUR SALES AREA. DO NOT HESITATE TO CONTACT US.

A new way to enjoy your sport fully

## OUR TRAININGS

In order to best adapt our trainings to your needs and specificities, the Sidas Academy offers you a varied and complete training offer. This panel is also adapted according to the different countries to remain consistent with your environment.

We offer trainings for the following three activities: Ski / Running / Outdoor. Discover the training solutions that may interest you!

FIND OUT MORE ABOUT THE SIDAS WORLD

# A PARTNER FOR EVERYONE WHO WANTS TO GIVE THEIR FEET THE COMFORT AND PROTECTION THEY NEED FOR EACH NEW SPORT AND EACH NEW DAY.

The success of Sidas' various projects is achieved by combining our passion for sport with the expertise of athletes, orthopaedic centres and sports experts. Sidas offers a wide range of products: insoles, foot protections, shoes, ski liners, socks, thermal socks and accessories.

SIDAS designs 360° foot care products, including comfort solutions adapted for all types of sport and all types of wear.

Podiatech offers a full range of equipment and consumables for podiatry and foot care, in order to meet the needs of foot care professionals and their patients.

Therm-ic develops thermal products to help users stay warm when participating in winter sports and activities, allowing them to get the most out of their pursuits.

Corpus.e is one of the most innovative suppliers of technologies in the field of digital sales. Its objective is to connect feet with shoes, based on their volumetric data. Its Shoo IQ platform is unique in that it enables the matching of feet with shoes, regardless of which measuring tool is used.

The Academy is born from the last 40 years of experience of Sidas world. Sidas and Podiatech have always trained their clients to be able to deliver the best custom products. The Academy wants to go further and share with you all our experience. Today the academy wants to be more... and share its experience, thanks to its network gathering the best world experts in their fields.

Serving wellness and natural health since 1977. We develop high-performance natural care products in France, respecting balance and nature. With Qenoa find comfort and vitality. Optimise and preserve your health in a harmonious way.

ENVIRONMENTAL

HUMAN

**RESPONSIBILITY**

WE CONTRIBUTE IN A SUSTAINABLE MANNER THAT EVERYONE ENJOYS LIFE FULLY THROUGH ADAPTED SOLUTIONS AROUND HIS/HER FEET & BODY

**PERFORMANCE SATISFACTION**

# FONDATION *SIDAS* WORLD

*Abritée par la Fondation de France*

“Beyond the performance and satisfaction of all, a company must undertake all its responsibilities on an environmental and human level. The SidasWorld Foundation will take action on the environment, by supporting concrete projects on climate and biodiversity.”

Let's take action together !

The word of our directors Jean-Pierre Delangle and François Duvillard.

FONDATION  
*SIDAS*  
WORLD  
Abritée par la Fondation de France

Find out more about the Sidas World Foundation, which aims to support sustainable development projects that contribute to the reduction of carbon emissions and support the preservation of ecosystems around the world.

## THE FOUNDATION IS PART OF SIDAS WORLD'S RAISON D'ÊTRE

Born from the Sidas company desire to take action for the planet through concrete climate and sustainable development projects, the Foundation mission is to make a sustainable contribution towards the preservation and rehabilitation of natural ecosystems.

### OUR MISSION

The purpose of the fund is to support sustainable development projects that help reduce carbon emissions and preserve ecosystems. It can also support initiatives to raise awareness and inform the public about sustainable development.

### WHY DID WE SET UP A FOUNDATION ?

- ▶ To give to committed partners who are carrying concrete projects in our territories.
- ▶ To raise funds.
- ▶ To raise employees awareness on sustainable development issues.
- ▶ To act together, involving our entire ecosystem from supplier to end-consumer.

### OUR FIELDS OF ACTION

The primary focus of the Fondation Sidas World is to support projects aimed at improving natural carbon capture:

- ▶ Planting.
- ▶ Forests adaptation, peatlands, mangroves, etc.
- ▶ Restoration of natural areas.
- ▶ Protection of biodiversity.
- ▶ Awareness-raising and training on these themes.
